ACM CHIIR 2018 Call for Papers and Proposals
See full call at http://sigir.org/chiir2018/call.php

The ACM SIGIR Conference on Human Information Interaction and Retrieval (CHIIR) (pronounced "cheer") will take place March 11-15, 2018 in New Brunswick, New Jersey, USA.

March 11-15, 2018
New Brunswick, NJ, USA

Conference Scope and Topics
Users are central to the design, evaluation, and use of information retrieval systems. ACM CHIIR 2018 invites submissions on user-centered approaches to information access, retrieval, and use, including studies of interactive systems, novel interaction paradigms, new evaluation methods, and a range of related areas. Alongside with detailed studies on specific information retrieval systems and situations, we welcome longitudinal, real-life, and ethnographic research of contextually embedded search tasks.

Dates for Submissions see http://sigir.org/chiir2018/call for full submission details

1 October 2017   **Full papers** (10 pages) report high quality, original research.
Perspective papers (10 pages) present novel ideas or insights concerning approaches, key challenges, or theoretical or methodological issues with potential to inspire substantive discussion and lead to significant advances in the field.

22 October 2017   **Short papers** (4 pages) report on original, significant, high-quality research.
Demonstrations (4 pages) should enable presenters to give participants first-hand experience of novel research prototypes, operational systems, or in-progress concepts in development.
Workshop proposals (4 pages) should be highly interactive and could be either full-day or half-day.
Tutorial proposals (4 pages) should address topics relevant to the themes of the conference and could be either full-day or half-day.

1 November 2017 **Doctoral consortium** proposals (3 pages) should include the abstract, motivation, research questions, (planned or ongoing) methodology, progress made, and future plans.

Submission Guidelines
- CHIIR submissions should be original, high quality research that have not been published previously and are not under review for another conference or journal.
- Submissions should not contain any author identification and should be submitted electronically via the conference submission system.
- The page limit for each type of submission includes references.
- All submissions should be formatted using the ACM Conference style (for LaTeX or Word). Submissions should be made in PDF.
- An international program committee will review all submissions. All reviews will be double-blind, so submissions must be fully anonymized when submitted.
- All accepted submissions will be made available in the ACM Digital Library as part of the CHIIR series.
